## FHWA/FTA Interim Guidebooks

### **An Interim Guidebook on the Congestion Management Process in Metropolitan Transportation Planning**

---

1. After reading the guidebook, what questions do you still have regarding:
  - a. Creating an objectives-driven, performance-based congestion management process (CMP)?
  
  - b. Implementing the CMP as an integral part of the metropolitan planning process?
  
  - c. Using the “8 Steps” of the CMP?
  
2. Do you have examples of other effective practices that should be included in this guidebook? Please describe.
  
  
  
  
  
  
  
  
  
  
3. Please include any other thoughts, comments, or recommendations you may have on how to improve this interim guidebook.

**Please return by December 15, 2008**
